

Engineering Budget — Revision for FY 2024

Revising the prior-year baseline from budget-2023.pdf, the board has approved a 15% increase to the engineering budget for fiscal year 2024.

The revised total is computed as last year's approved amount multiplied by 1.15.

All figures take effect on January 1, 2024. Quarterly review meetings will track variance against the revised total.
